We have created this all-inclusive annual fee for Connections in recognition that students are transitioning to greater independence in all aspects of their lives and benefit from coaching and case management throughout the year. During the summer of transition from Residential to Connections, a student may start a new apartment lease in the community anytime over the summer. Pricing of the Connections or Residential program will not be adjusted to charge more or less based on the move-out date. However, beds in our dorms past July 1 while waiting to move out are only available on a space available basis. If a student chooses to remain home or travel out of state during the enrollment period, services will be provided remotely and there will be no adjustment to the rate.

Third and Subsequent Years of Connections, Non-Residential *Customized*

Students may elect to enroll in one, two or all three of the programs listed below.

Pricing for each program includes 12 months:

- Six-month enrollment available pro-rated to 50% if student is graduating after fall term
- If a student chooses to travel during the enrollment period, services will be provided remotely

For example, we may recommend that a Third Year Connections student utilizes Giving & Engaging ($13,100) and the In-Person Academic Support Plan ($20,200) for a total of $33,300 in annual services. In this scenario, in-person Living support, including in-person apartment checks, etc., is no longer included in their services.

Another example may be that a student chooses the Living ($15,100) and Giving & Engaging ($13,100) and one hour per week of Canopy College Coaching ($7,900 estimated). Total tuition for this combination would be $36,100. In this scenario, the student is no longer utilizing in-person academic support. Instead, they are relying on the remote coaching services from Canopy College Coaching.
